Location: Somerville, MA

ABOUT ME | Hi! I'm Lindsey Grimes, and I'm a newly-minted junior web developer who's focused on making websites that please both the eye and the brain. I am looking to obtain a position with a stimulating work environment that will enable me to keep learning while I put my skills to good use.

EDUCATION

B.A., COLLEGE OF LETTERS

Wesleyan University | May 2012

An interdisciplinary, writing-intensive major including literature, philosophy, history and language.

SKILLS

JavaScript

HTML

CSS

Ruby

Rails

Git & Github

Node.js

AngularJS

MySQL

MongoDB

Mongoose

Express

EXPERIENCE

WEB DEVELOPMENT IMMERSIVE

General Assembly | May – July 2015

A twelve-week full-time course covering web development from the front end to the back end. In addition to languages, databases, and frameworks, the course covered programming fundamentals, industry best practices, project development and version control, and team collaboration.

Languages: JavaScript, HTML and CSS, and Ruby.

Other tools: Rails, Express, Node, Angular.js, MySQL, MongoDB and Mongoose, and Git.

OFFICE ASSISTANT (TEMP) *Monument Staffing, Professional Staffing Group, Event Temps*

July 2014 – March 2015

Provided flexible support in a variety of office environments: created data spreadsheets and mailing archives; fact-checked documents, put together mailings, and performed customer service duties.

PROJECTS

TIC-TAC-TOE

github.com/toomanyadverbs/tictactoeproject

My very first project: a front-end app to allow you to play tic-tac-toe in the browser. Made in Javascript, HTML, & CSS.

NOZAMA BOOKS

github.com/Hogue/project_three_ecommerce_prompt/

A group project making an ecommerce website using Node.js, MongoDB, and the Stripe API (to make payments). Also implemented user authentication and Materialize.css framework.

JUDGE THE KITTENS APP

github.com/toomanyadverbs/judge_kittens_api

Like 'Hot or Not' but for judging your cats! A Ruby on Rails app with a Javascript front end, utilizing jQuery, Bootstrap, and psql.

BUILD A CASTLE TUTORIAL

github.com/toomanyadverbs/project-4-easy-html-tutorial/

An Angular app desgined to be an entry-level HTML and CSS tutorial aimed at getting kids to explore. Uses Ace, an embeddable code editor framework, Bootstrap, and MongoDB with Mongoose.
